

9/27

Stack now contains

when a new entry is made at  $i+1$  in the stack,  
 whether for a call or <sup>an</sup> asynchronous interrupt being patched in,

$$T_{i+1} = \begin{cases} b_{i+1} & b_{i+1} \notin P(t_i) \\ t_i & b_{i+1} \in P(t_i) \end{cases}$$
