

26 Aug '71 very old doc (spring '70) about 'system system'

1 Aug '71 picture of disk process

22 July '71 Jones suggestion for using ECS test set reg.

22 July '71 (info from 19 May '71) ECS page analysed

8 June '71 Proposal for system subprocess testing

6 June '71 Ask user, find, & page subprocess calls on CP

5 May '71 Space command

5 May '71 C.P. Projects

? list of BEADS errors

- 17 Mar '71 Major (immediate) disk system problems
15 Mar '71 Immediate disk system mopping up
15 Mar '71 Sketch of disk system status
~ Mar
~~Feb~~ '71 allocation block, Mark III proposal (signed)
2 Feb '71 Proposed disk accounting action (Dave)

- 7 Dec '70 Command Processor preliminary spec (Karl)
- 9 Dec '70 Bead naming conventions - 2 part names,
dynamic name tags for objects other than
disk files; Bead-like directory.
Special scan list for second part of name if
not null or current user.
- 5 Dec '70 Command Processor parameters, syntax & semantics
- 4 Dec '70 Panic handling by Command Processor - diagnosis
of algorithms; pre-automatic interrupt
inhibition at call).
- 30 Nov '70 New look in call stacks
- 24 Nov '70 Panic handling by Bead 4.1
- 18 Nov '70 New look in call stacks (contains automatic
interrupt inhibit proposal)
- ? Some descriptions of Gene's stuff
- 11 Sept '70 Tentative Basic Command Processor -
1) defines scan list of directories
2) list of variables
+ various properties thereof
- ? System Standard - Jim Gray's minor
changes to system characters & escape
conventions
- ? System Initialization & System Part of
User Initialization - describes builder

29 June 70 Directories (part)

? Line Collector - brief desc of Howard's de-Beader
line collector & characteristics thereof

? Interrupts - brief page made during redesign of
interrupts

9 July 70 Low load disk system actions (Bruce & Dave)
← 1 June 70 Dump Load - short spec of disk dump load problem

? User Interface engineering - brief, incomplete requirements

30 March '70 Work Remaining on ECS system
CPU Time proposal, mark II
AB design, mark II

? Bruce's proposal for linear priority scheme
using class codes

? Proposal for a batch system

7-6-70 TSS Display Driver, Revision A

30 April '70 Proposal for disc subprocess descriptors

~~19 March '70~~

23 April '70 Open & Close - rep of various directory objects &
what open & close does to them.
(Global ECS objects & ECS goodies!)

? TSS Display Driver (Kith)

17 April '70 Directory actions, general
access, creation, destruction of
ownership entries, hard links, soft links

17 April '70 Directory structure
accounting, entries, locating entries
↳ name, object, access list,
scratch bit

17 April '70 Directory actions, specific

3 March '70 Disk process structure - very early directory
stuff

? Disk actions, ^{working} ~~funny~~ disk space vs form read,
magic vs manual pseudo-close fragments

12 March '70 Proposal for ECS return with parameters

12 March '70 " " " creation of cat of specified
type

19 Feb '70 directory object description

22 Jan '70 Objects in directories

5 Mar '70 Block parameters, funny return proposal

5 Mar '70 Global object proposal

5 Mar '70 ECS goodies proposal

19 Feb '70 Subprocess description proposal
